## SPECIES OF FISH CAUGHT IN AND NEAR CANO PALMA (TORTUGUERO, COSTA RICA)

SCIENTIFIC NAME	COMMON NAME	LOCATION FOUND	DATE m/d/y	NOTES
Order: Chondrichthyes	Sharks & Rays			
<i>Carcharhinus leucas</i>	Bull Shark	Cano Palma	2004	
Order: Semionotiformes	Gars			
<i>Atractosteus tropicus</i>	Tropical gar pike			Uncommon
Order: Clupeomorpha	Sardines & Shad			
<i>Anchoa parva</i>		Cano Palma. Estuarine shade.		Jumped into boat at mouth of Cano Palma
Order: Ostariophysi	Tetras & Catfish			
Characidae				
<i>Astyanax aeneus</i>	Banded tetra	Canal		Common
<i>Brycon guatemalensis</i>	Machaca			Caught on hook
<i>Compsura dialeptura?</i>	Pygmy tetra			Spawning group. Observed once.
<i>Roeboides bouchellei</i>	Glass headstander			Fishing
Gymnotidae				
<i>Gymnotus maculosus</i>	Knifefish			
Pimelodidae				
<i>Rhamdia guatemalensis</i>	Guatemalan catfish	Canal & ponds		
<i>Rhamdia rogersi</i>	River catfish	Rio Suerte		
Order: Atherinomorpha	Cyprinids & Silversides			
Rivulidae				
<i>Rivulus isthmensis</i>	Pond killie			
Poeciliidae				Livebearers
<i>Alfaro cultratus</i>	Knife-edged livebearer			Common
<i>Belonesox belizanus</i>	Pike livebearer			Widespread
<i>Brachyrhaphis holdridgei</i>		In seepages & canal		
<i>Phallichthyes armatus</i>	Merry widow			Common
<i>Poecilia gillii</i>	Blue molly			Common
<i>Poecilia mexicana</i>	Mexican molly	Rio Suerte		
Atherinidae	Silversides			
<i>Atherinella milleri</i>		Found in plastic bag on beach		
<i>Atherinella chagresi</i>		Canal		Caught in net
Order: Percomorpha	Spiny-rayed fishes			
Syngnathidae	Pipefish

Pseudophallus mindii	Atlantic Freshwater Pipefish	Canal		Observed occasionally
Synbranchidae				
Synbranchus marmoratus	Swamp eel	In pools		Eaten by coral snakes
Centropomidae	Snooks			
Centropomus undecimalus	Common snook			
Centropomus parallelus	Fat snook			
Lutjanidae	Snappers			
Lutjanus griseus	Grey snapper			
Cichlidae				
Amphilophus citrinellus	Midas cichlid			Green phase
Astatheros alfari	Pastel cichlid	Caribbean Magic		Two specimens caught
Astatheros longimanus	Redbreast cichlid			
Astatheros rostratus		At dock		Observed breeding
Archocentrus centrarchus	Flier cichlid			Rare
Archocentrus nigrofasciatus	Convict Cichlid			Common
Archocentrus septemfasciatus				Only known from specimens in alcohol at Cano Palma station
Herotilapia multispinosa	Rainbow cichlid			
Parachromis (Nandopsis) dovii	Wolf Cichlid {Guapote}			Rare
Parachromis (Nandopsis) loisellei	Loiselle's cichlid {Guapote Amarillo}			Common
Parachromis managuensis	Jaguar cichlid			Common
Vieja maculicauda	Black belt cichlid			
Eleotridae	Sleeper gobies			
Dormitator maculatus	Fat sleeper			
Eleotris amblyopsis	Sleeper			
Eleotris pisonis	Spinycheek sleeper			
Gobiomorus dormitor	Bigmouth sleeper			Eaten by heron
Hemieleotris sp. Nova	Pygmy sleeper	Found by Ron Coleman on lawn		
Paralichthyidae	Flounders			
Citharichthys uhleri		Caught off Cano Palma dock	04/01/06	
<b>TOTAL SPECIES: 42</b>
